Subj: Your Unique Authorization Number

Dear Sir/maam,

Thank you very much for your goodwill and support to VIKASCT, the network of Indian Science Clubs, started by Vigyan Prasa, an autonomous organization of the Department of Science & Technology, Government of India. My program is to make it your forum where you could do many things and exchange ideas with other clubs and like minded bodies across the country. Like each of you have some ideas of making your club a unique one in your area, we also hope to get shared with new and innovative projects have started and better. For this, we need constant interaction with you.

After going through your application form, supported by other necessary documents, we are now in a position to give you the Unique Authorization Number, which should be quoted now onwards in all your communication with us. Very soon you will also receive the Certificate of Affiliation and other material from Vigyan Prasa to build your club library that would enable you to expand your activities.

**Your Unique Authorization Number: VP-DL0015** We would also like you to note that you would be expected to send reports of your activities to us on a regular monthly basis. This will help us to know that your club is active. Secondly, the certificate is meant for all members of the club. In future events that it is circulated amongst them. You are also invited to contribute your ideas, activities and pieces of information in this newsletter so that these can be shared by other member clubs as well.

Best wishes to all of you!

Yours sincerely

Arvind Bhasin  
 (Executive Research and Development  
 Department)
